THE GREATEST 100 ROCK ALBUMS TO OWN ON VINYL

There are way more than 100 Great Rock Albums, and placing them in some kind of order is complete nonsense. Music is not a competition and there are no hard and fast criteria by which to judge the greatness of an album. All you can do is measure popularity, the artistic currency a record currently has with critics or the public.

So what, then, is the point of this, The 100 Greatest Rock Albums Classic Rock special? Think of it, maybe, as an opinion poll, a beginner's guide, a celebration of some of the greatest music ever made, and a snapshot of a time. Nothing here is set in stone, and if we do this again the results will almost definitely be different. But right now, in 2020, these are the 100 albums that rock fans think are the greatest ever.

The result is 152 pages dedicated to some of the greatest records ever made, the albums that have soundtracked the lives of generations. When we were making this, we listened to each and every one of them. Far from being a difficult slog through music we've listened to a thousand times, it reminded us of why we love rock music so much. We hope it does the same for you.
